## EXPERIENCE

### Senior Full Stack Developer

#### Tandem Collabs Pte Ltd ( SmartStickies )

- 09/2024 - 04/2025   Remote
- Led development of scalable full-stack applications with Laravel and Vue.js, focusing on performance and maintainability.
  - Led the development of scalable full-stack applications using Laravel and Vue.js, with a focus on performance, maintainability, and user experience.
  - Integrated third-party services such as Xero and Stripe, implementing webhooks and managing queue systems to ensure reliable and efficient data processing.
  - Designed and implemented secure, high-performance RESTful APIs.
  - Partnered with stakeholders to align technical solutions with business objectives.
  - Led code reviews and enforced architectural best practices across the team.

### Full Stack Developer

#### ATA One Stop Services (ATA-digitech)

- 11/2023 - 08/2024   Bangkok, Thailand
- Led development of an integrated employee portal with payroll and HR features using PHP (Symfony) and Next.js.
  - Managed deployment and infrastructure on DigitalOcean and Ubuntu, ensuring high availability and reliability.
  - Contributed to code development, system architecture design, and performance optimization.
  - Improved UI/UX and refactored codebase to enhance maintainability and user experience.

### Software Development Team Leader

#### Myanmar Online Creations

- 05/2021 - 11/2023   Yangon, Myanmar
- Led a team of five developers in delivering enterprise solutions, including POS, loyalty, school management and inventory management systems.
  - Guided the team on best practices, secure coding, and system architecture, improving delivery efficiency.
  - Contributed to system architecture with a focus on reusability, scalability, and maintainability.
  - Collaborated with cross-functional teams—including design, quality assurance, and product management—to align on project goals and timelines.
  - Conducted onsite meetings with clients to gather requirements and ensure alignment with business needs.
  - Managed multiple projects simultaneously, overseeing team productivity and delivery milestones.
  - Utilized Trello to manage project tasks, monitor timelines, and streamline team collaboration.
  - Handled DevOps responsibilities, including server configuration and deployment on Ubuntu with Nginx.

## SUMMARY

Motivated full-stack developer with over 6 years of experience in building scalable web applications and APIs. Skilled in PHP (Laravel), MySQL, and JavaScript, with recent expertise in Node.js (Express.js) and MongoDB. Adept at designing and implementing robust backend services, managing third-party integrations, and deploying secure, high-performance systems. Possesses strong project management and leadership skills, with a proven ability to lead teams, coordinate projects, and deliver solutions on time. A dedicated problem-solver, quick learner, and passionate team player committed to delivering quality results in fast-paced, agile environments.

## EXPERIENCE

### Software Developer

#### Myanmar Golden Rock

📅 05/2020 - 03/2021 📍 Yangon, Myanmar

- Led development teams using PHP (Laravel) and MySQL to build scalable, maintainable web applications, ensuring alignment with project goals and best practices.
- Integrated banking and cheque clearing systems using C# and the .NET Framework.
- Trained and supported end users to ensure effective system adoption.
- Collaborated with cross-functional teams to align on project goals and deliverables.
- Communicated with merchants and vendors to coordinate technical requirements and support.
- Resolved production issues to maintain system stability and performance.
- Installed and deployed systems on merchant-provided servers.
- Reported project status and progress directly to management.

### Software Engineer

#### CB Bank

📅 07/2018 - 02/2020 📍 Yangon, Myanmar

- Developed and integrated secure payment gateways, including MasterCard, Visa, JCB, and settlement process.
- Designed and implemented a comprehensive reporting system using ASP.Net, SQL Server, and stored procedures to streamline transaction tracking and analytics.
- Optimized system performance, significantly reducing transaction latency and improving user experience.
- Provided technical support and resolved debugging issues related to payment gateway integration on merchant websites.
- Collaborated closely with the business team to align technical solutions with project objectives and ensure successful delivery.
